## 1. User's guide

This is the guide for the users of Dimensions. If you want to develop an application that uses Dimensions or even extend Dimensions classes, this is the guide for you.

[User's guide](#) (user/index.html)

## 2. Developer's guide

If you want to know more about internal structure of Dimensions or if you want to hack the code, this is the preferred guide.

[Developer's Guide](#) (developer/index.html)

## 3. JavaDoc API

The classic JavaDoc generated documentation.
